YOU ARE INVITED!

RELIABILITY & CONDITION MONITORING

WEDNESDAY, MAY 15TH, 2024

With fewer resources and a mounting loss of experienced personnel, many facilities are struggling to maintain the reliability and availability of their machinery to meet production goals. Whether your condition monitoring program is new, expanding, or in need of modernization, we have a flexible, comprehensive strategy to share with you. Our approach integrates portable, wireless, and online monitoring into a single platform with common interfaces to deliver accurate results.

SPEND A DAY WITH OUR INDUSTRY EXPERTS TO LEARN HOW THESE SOLUTIONS CAN APPLY TO YOUR CONDITION MONITORING PROGRAM

THE DAY'S PROGRAM WILL INCLUDE THE FOLLOWING:

WHAT DOES IT MEAN TO BE A TOP-QUARTILE RELIABILITY PROGRAM?

WHAT PROVEN STRATEGIES ARE AVAILABLE FOR EFFICIENT AND EFFECTIVE CONDITION MONITORING.

HOW DOES IMPACT MONITORING WITH EMERSON'S PEAKVUE TECHNOLOGY FACILITATE VIBRATION ANALYSIS?

WHAT MODERN AUTOMATED DATA COLLECTION AND ANALYSIS TOOLS ARE AVAILABLE?

WHEN AND HOW DO I APPLY ADVANCED ANALYTICS/SOFTWARE?

WHAT ARE SOME BEST-CASE EXAMPLES OF TECHNOLOGY IMPLEMENTATION/ROI?

WHAT TRAINING AND SUPPORT OPTIONS ARE AVAILABLE?

PROGRAM WILL CONCLUDE WITH PRODUCT DEMONSTRATIONS, Q&A SESSION, AND A NETWORKING EVENT
